

To figure out how many decks you will need to build the stage you are considering, use the following graph for an easy reference. Just combine the length and the width to the corresponding column to determine the exact amount of decks you will need for that size stage.

	Width	8'	16'	24'	32'	40'	48'	56'	64'
Length	Number Of Decks Needed To Configure Stage Platform For These Dimensions								
4'		1	2	3	4	5	6	7	8
8'		2	4	6	8	10	12	14	16
